

OMRON

## Easy to use

Using the Gentle Temp 533 is simple and intuitive. It automatically stores up to 30 previous readings, making it easy to track temperature changes over time and manage your family's health with confidence.

### The Process:

- 1. Remove the protective cover**  
Quick and easy—just remove the cap and you're ready to go
- 2. For a silent mode, press both the temperature and start buttons simultaneously**  
Quiet mode eliminates beeps and disruptions
- 3. Switch on by pressing the button**  
One tap to power up. Designed for effortless handling and intuitive control
- 4. In order to measure, insert the probe into the ear and press the top button**  
Simply insert, press, and get your reading
- 5. Press memory button to check the records**  
The built-in memory function is perfect for monitoring trends over time

### Gentle Temp 533

# Trusted accuracy for your family care

Experience accurate temperature measurement in just one second—without the need for probe covers. The Gentle Temp 533 is the smarter way to care: accurate, fast, silent, sustainable, and cost-efficient for modern families.

## Accurate Results

**Reliable readings you can count on, every time.**

Designed with OMRON precision technology to deliver clinically proven, accurate measurements for you and your family.

## 1-Second Measurement

**Precision you can trust. Instantly.**

Delivers fast temperature readings in just one second—perfect for quick checks, even with restless children.

With its one-touch operation and silent measurement, it's ideal for use with sleeping children or during nighttime checks. Compact and ergonomically shaped, the Gentle Temp 533 It's travel-ready and intuitive to use, making it a trusted choice for modern households.

Its sustainable, cost-efficient design supports everyday care — from infants to adults — with comfort and reliability in every reading.

## Smart technology for your healthcare

### Completely silent

**Measures temperature in complete silence** — the buzzer-off mode ensures quiet, discreet use anytime.

### Probe cover free

**Easy to clean. Hygienic by design.** Thanks to advanced sensor design, there's no need for probe covers.

### Easy to clean

**Easy clean in a snap, reuse with ease.** No disposable parts needed. With a quick wipe, it's ready to use again.

### Works on 2 AAA batteries

**No special batteries needed.** Easy to replace, easy to find. No coin cell hassle.
